```

```
<Figure size 640x480 with 0 Axes>
```

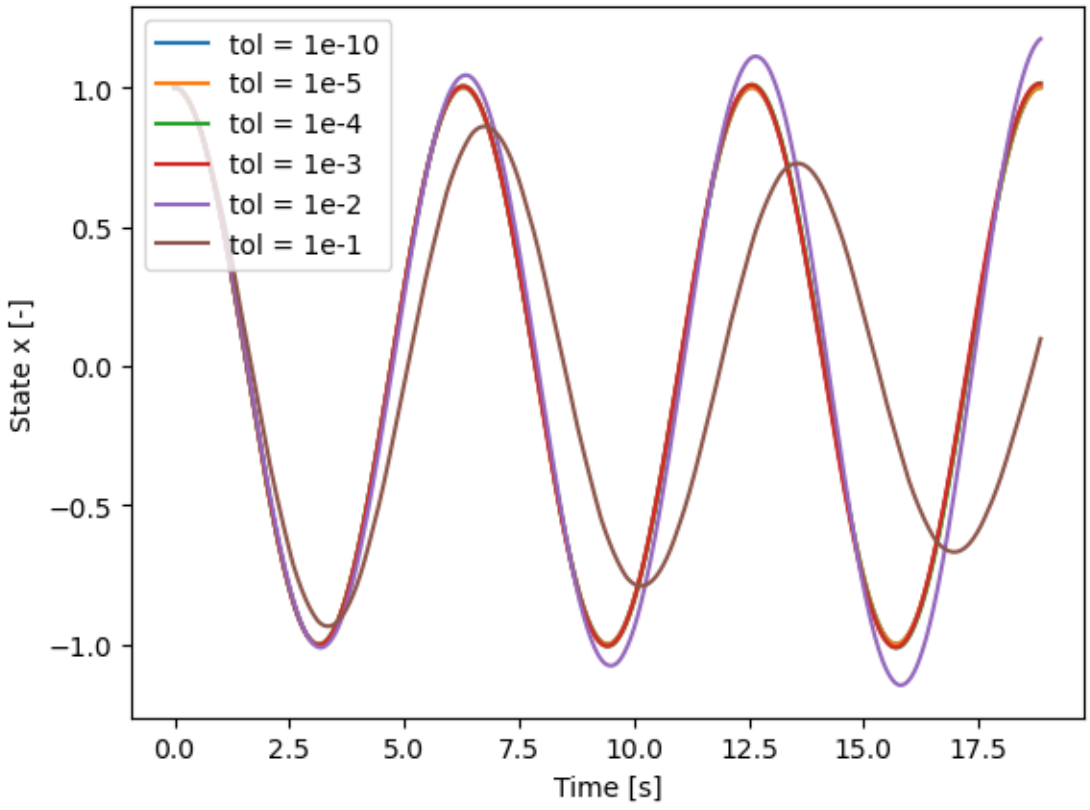
[7]:
```
for tol in tolerances:
  opts = {'reltol':10.0**tol, 'abstol':10.0**tol, 'grid':ts, 'output_t0':True}
  F = integrator('F', 'cvodes', dae, opts)
  res = F(x0=[1,0])
  plot(ts,array(res['xf'])[0,:].T,label='tol = 1e%d' % tol)
legend( loc='upper left')
xlabel('Time [s]')
ylabel('State x [-]')
show()
```

```
CasADi - 2023-04-24 21:30:10 WARNING("The options 't0', 'tf', 'grid' and
'output_t0' have been deprecated.
The same functionality is provided by providing additional input arguments to
the 'integrator' function, in particular:
 * Call integrator(…, t0, tf, options) for a single output time, or
 * Call integrator(…, t0, grid, options) for multiple grid points.
The legacy 'output_t0' option can be emulated by including or excluding 't0' in
'grid'.
Backwards compatibility is provided in this release only.")
[…/casadi/core/integrator.cpp:499]
```



[8]:
